# Svårigheter

Inte mycket content att jobba med, sidan är inte responsive, sidan använder ingen flex-box eller bootstrap.

Jag skapade sidan mobile-first, och valde vid ett senare tillfälle att lägga till en aside – Så jag fick börja från 0 med responsiviteten igen. Vilket tog extra tid.

I början försökte jag programmera emot bootstrap, genom att ge klasser för styling och sen försöka ändra den ytterligare i CSS.

# Svårigheter

Det svåraste var, trots att man använde bootstrap, att få rutorna att hamna precis där man ville ha dem

Bootstrap var också lite bökigt att använda ibland när man ville ha något väldigt precist

Eftersom jag personligen föll helt åt Bootstrap-hållet så blev vår metodik och design lite olika

# Den lätta biten

Att lära sig Bootstrap  
var förvånansvärt lätt

Idén att inspirera oss av  
moderna contentflöden  
som Reddit föll sig  
ganska naturligt

# Den lätta biten

Eftersom sidan inte hade mycket content från början fick vi båda bli kreativa med hur vi ska visa det på ett spännande sätt.

Sidan hade väldigt mycket onödigt stök, som vi fick bli kreativa med att visa. Vi använde en bootstrap carousel som visade sig väldigt effektiv.

Forum-hemsidor har en tydlig och lättläst struktur. Det var väldigt lätt att skapa divar och boxar för all content, och gick lätt att förstå hur allt hörde ihop.
